PAINT THE ANTIQUED TO
ATTRACT WILD DUCKS
Fish, Fowl and Folks

THE FINEST AQUATIC PLANTS
AND NURSERIES
OSHKOSH, WIS., U.S.A.

ESTABLISHED 1896

PROVIDE FOOD FOR DUCKS THIS FALL!

Plant These Legal Duck Attractions!

FED DUCKS AN OVEN Increase rapidly, making lots of wild and tame waterfowl food.

COONHILL (Ceratophyllum)

Scatter 12 bu. per Acre in 2 to 3 ft. quiet water where it will not wash out. COONHILL is eaten by practically all Ducks and by Swans. Most productive of short bursts of life for 1997. Grows all day, under water plant we know. Has no leaves, leaves under water. Grows in either cold or hard fresh water. Stands shade. Plants: 6 Bu. (sows 1/2 acre) \$30.00; 1 Bu. \$6.00.

WATERGREEN DUCK'S MELT (Najas) (Musk)

Grows throughout U. S. and Canada, except extreme southeastern U. S. Praised highly for duck food by the Ontario Government. Thrives either in slightly acid or hard water. Grows in somewhat alkali water in west. Ponds, flowages, and waters with rushes or fallen timber afford good anchorage to plants which float submerged and unrooted. Scatter 12 Bu. per Acre in 2 to 3 ft. quiet water. Stays green all winter. Plants: 6 Bu. (sows 1/2 acre) \$30.00; 1 Bu. \$6.00.

SURFACE FLOATING DUCK'S MELT (Spirodela)

Good duck and fish food for water where throughout U. S. Not common in bottom, but floats on surface of water. Makes food for ducks. Grows rapidly, will provide lots of food in short time. Starts in Oct. delivery. Plants: 3 Bu. (Sows Acre) \$25.00; 1 Bu. \$8.00.

SPADEA (Elodea)

Very resistant, quick-growing food for Geese, Waterfowl, Muskrats, Snappers, Leeches. Called by "Ducks and Fish". For best duck food, water, even if quite cold. Plants: 12 bu. (sows 1/2 acre) \$45.00; 5 Bu. \$25.00; 1 bu. \$6.00.

TRUE WHITE CRESS (Nasturtium officinale)

Delicious in salads and sandwiches. Just as good for Ducks, Fish and Muskrats as for you. Rich in vitamins which promote the breeding instinct. Plant in few inches of hard water in springs, streams or flowing wells that don't freeze in winter. Makes food all winter. Plants: Bu. \$6.00; 5 Bu. \$25.00.

(You may take the 5 or 6 bu. price on quantities of 3 bu. or more of any of the above items.)

WHAT TO DO IN THE FALL WATERFOWL PLANTING TIME

TO ATTRACT WILD DUCK, PLANT:

- Glenn Wild Rice Seed
- Wild Duck Seed
- Marsh Marsh Seed
- Marsh Seed
- Marsh Seed
- Marsh Seed
- Marsh Seed
- Marsh Seed

TO ATTRACT WILD GESE, PLANT:

- Glenn Wild Rice Seed
- Wild Duck Seed

TO ATTRACT MORE BIG, BROAD-LEAFED PLANT:

- All the above plants except Glenn, Burreed, Three Square Bush, Broadleaf Seed, Wild Duck Seed, Marsh Marsh Seed, and Marsh Seed.

TO ATTRACT MORE MURRANS, PLANT:

- Glenn Wild Rice Seed
- Wild Duck Seed
- Marsh Marsh Seed
- Marsh Seed
- Three Square Bush

TO ATTRACT HERASANTS, GOOSE AND LIPS, CROUSE, PLANT:

- Glenn Wild Rice Seed

TO MAKE A GAME DINNER COMPLETE, THE W. TERRELL'S FANCY WILD RICE FOR DINNER

The Original American Recipe

This, used by the American Indian and early settlers. Served today by America's best eating places. Chock-full of health-giving vitamins and minerals. Doctors who know are our best customers. DWARF RUSSET POND PLANT OR NAIAD (N. flexilis)

This is the best of the different types of Naiad as it is covered with seed that is a favorite food of many ducks. Duck stomach investigations made by the University of Minnesota have proven its value as a duck food.

Excellent cover and food producer for mall. Grows submerged, about 6 inches high -- in 1 and 2 ft. deep clear, fresh, slightly salt, somewhat alkaline pond or slightly salt water -- on sandy or muddy soil. Seed available only in fall. Sows 7 1/2 lbs. per acre. **SEEDS WITH RICE SEED:** Bu. \$8; 5 Bu. \$35.00.

SOUTHERN NAIAD (N. flexilis) grows in shallow to above variety but grows larger and is not so great a seed producer. Its principal range is the eastern half of the U. S. south of the Great Lakes region. Bu. \$8; 5 bu. \$35.00.

WHEAT OR DUCK CORN (Zea mays)

Seeds as large as corn -- a good duck food. Does well on marshy, marshy places and along the water front. Grows eastward to Atlantic in natural or acid water and on fresh or salt water. Grows well in waters near coast. Row 15 lbs. per acre. **SEEDS:** 10 Lbs. \$13.00; 1 Lb. \$1.25 (Postage 25c).

WILD DUCK CORN (Zea mays)

Important Duck Food to some of the duck and corn country of the South during fall and winter. Produces 20 lbs. Seed per Acre on moist and fertile and very rich soils. Wild Ducks and Upland game use the sprouting plants and later feed on the grain. Called the "Wild Rice of the South." **SEED:** 100 lbs. \$20.00; Bu. (35 lbs.) \$8.50; Peck \$2.75.

CANADA (Zea mays)

Excellent for Muskies, etc.

A Canada variety produces excellent food and horse-killing material on wet. Canada grows in marshy places in shallow water or rather salty water almost anywhere in U. S. and Canada.

Canada variety
growing in water.

PURE CANADA SEEDS: 100 lbs. (Sows 1 lb. per acre) \$2.00; 10 Lbs. (Sows 1 lb. per acre) \$2.00.

PERENNIAL TRENT

Perennial Trent
in ground.

A shrubby, hardy, perennial vine, bearing numerous red berries that make attractive food for both ducks and upland game. This plant thrives throughout the U. S. on moist ground, poor dry ground, in shallow water, in almost any soil or in almost no soil at all. Very hardy. 100 Vines \$25; 25 Vines \$6.75; 10 Vines \$3.

TERRELL'S FURNISH A FULL 30 LB. BUSKEL

EXTRA! GIB. Solace. The only one of its kind. When first General G. G. Gibbons, U. S. A. Bracken's Marooned, is shown.

WHY/WHY: Express satisfaction is the person's satisfactory for our planting material. When shipped it reaches destination in perfect condition for planting. Large quantities can be sent by refrigerator freight or truck.

PLACES are N. O. R. Gibson, or other selected points, unless otherwise stated. If foreign shipment is desired, be sure to include with your remittance sufficient amount to pay charges.

TERMS: Cash with Order or C. O. D.

GUARANTEE: If any of our growing materials fail to produce what the purchaser considers a satisfactory growth after giving planting sufficient time to establish itself, we GUARANTEE to replace it at ~~full~~ price, or send an equal value at half price of other planting material selected from our current price list.

~~Sold Out~~
~~SAGO POND PLANT~~

(*Elodea canadensis*)

Among the leading Sage Pond Plant one of the most valuable water weeds being a favorite of ducks, geese, swans, and swan. Also thrives in ponds and supports an abundance of water life.

Early in the season the size of seeds, the size of the plant, and the color of the leaves. Later in the season the plant produces tubers which make a fine food material for Canvasback and other diving ducks.

Sage Pond Plant is easily grown in any hard water pond, lake, or moving including mud, and will grow in all types. Thrives best in warm water and Canada.

Sage Pond Plant with SEED. 40 Lbs. (Plants Acre \$30.00) 10 Lbs. \$8.00 2 Lbs. (Postpaid) \$4.00.

"Order Early" We Have Only a Limited Supply.

ELDERBERRY (*Sambucus racemosa*)

One of the most valuable of the food plants for waterfowl. It is a native plant of the North American continent and is found in all parts of the continent. It is a very hardy plant and will grow in all types of soil. It is a very valuable plant for waterfowl and is a favorite food of ducks, geese, and swans. It is also a very valuable plant for the human race and is a favorite food of many people. It is a very hardy plant and will grow in all types of soil. It is a very valuable plant for waterfowl and is a favorite food of ducks, geese, and swans. It is also a very valuable plant for the human race and is a favorite food of many people.

It is a very hardy plant and will grow in all types of soil.

MUSKGRASS Chara, with Ripe Seed Spores

An economical, quick-growing Feed for Wild Ducks

Surface of Water

Also eaten by other
birds and fish

Muskgrass Chara
is easy to plant
and grows in any
water containing
lime including hard
water and brack-
ish or slightly salty
waters. Muskgrasses
makes excellent food
for fish and other
aquatic life. For
them.

ENLARGED
NATURAL SIZE

Examination of ducks stomachs made by the U. S. Bureau of Biological Survey have shown Muskgrasses to be eaten by Pintails, Blue Ducks, Green-winged Teal, Canada Geese, Ring-necked Pheasants, Mallards, and others. It is one of the best food for waterfowl and other birds. Many ducks prefer it to feeding them grain. Muskgrasses grows so fast that the birds do not feed it.

In growing three lbs. of the Muskgrasses seed, you will need only one lb. of organic material such as manure or the waste of the kitchen. For more information, see our book, "How to Grow Muskgrasses for Food for Wild Ducks and other Waterfowl." It is also used by millions of ducks in their winter homes. Muskgrasses is suitable for planting any time of the year. It is the best time to plant in June, July, August, and September.

OUR TIME IS COMPLETED

Plans for wintering the following waterfowl have been made in Virginia, Lake Ontario, Deep Water Lake, Pennsylvania, Green Bay, Wisconsin, and many other places. However, the following are particularly for the northern states and provinces that have results are from plantings made of these things in the spring of the year. We do furnish them in the fall on request.
